

LED LAMPS

CONNECTED SOLUTIONS. SERVICE. SIMPLICITY.

EiKO.COM

A LAMP FOR EVERY APPLICATION.

LED LAMPS AND RETROFITS offer the form, fit, and function of traditional lamps with all the benefits of the latest light source technology. Replacing traditional lighting with LED increases reliability, life, energy efficiency, and sustainability, while reducing maintenance costs and energy bills.

EiKO offers a complete line of LED products – including LED HID Replacement Lamps, screw-based LED A-Line and Decorative Lamps, pin-based LED PL Replacement Lamps, and recessed LED PAR, BR, and MR Lamps and Downlight Kits – to replace your traditional lamps at a fraction of the energy consumption. Available in a wide array of wattages, lumen packages, and color temperatures, these lamps are an ideal solution for residential and commercial applications. Energy efficiency certifications, including ENERGY STAR®, ensure industry-best energy efficiency, regulatory compliance, and rebate availability.

EiKO makes choosing a quality replacement lamp easy.

HID REPLACEMENT LAMPS

GENERAL PURPOSE LAMPS

PIN BASE LAMPS

RECESSED LAMPS

HID REPLACEMENT LAMPS

HID Replacement Lamps by EIKO directly replace high-watt metal halide or high pressure sodium fixtures at a fraction of the energy cost.
